And now a few words from me:

Hi there! I'm Lillee, a beautiful, long-haired girl with gorgeous black fur. I'm a senior gal, but I'm happy going for short walks in this small country town. My foster mom says I "crack her up" as my tail starts wagging the minute I see the leashes as we prepare to go for a walk. But I'm just as happy to curl up next to you and snooze the day away. In fact, if you fall asleep with me on the couch, I like to snuggle around your head. I really like having people around most of the time!

At night I sleep in the big bed but that's because, at 14 years old, I have earned that right. My foster mom tends to spoil the seniors. I was a bit of a picky eater when I first got here but now the other dogs have shown me that meal time is special – I joyously accept my meals when they are served. I also really like the vegetable treats that are on offer. I'm a little bit overweight so we are working on my girlish figure.

I would love to go to a home where someone is mostly at home. Do you think you have a little time and patience for a sweet girl like me? I sure hope so, because as much as I love it here, I can't wait to meet my forever family.

And now a few words from my foster family:

Lillee is a darling little girl and warmed to me (foster mom) very quickly. She follows me around and prefers a spot on the floor so she can be nearby. Lillee was very quiet at first but now has found her voice. She barks a bit at visitors who come to our home but will correct quickly. She's always been very gentle with anyone she meets.

Lillee was a bit overweight when she arrived, but she's already slimmed down a few pounds. She loves "people food" so it will be important to stick with good quality dog food, with just a few treats.

It took a little bit of time, but Lillee's little personality is finally starting to come out. She will playfully bump or softly mouth your hand to get you to pet her. She adores sitting on the back porch patrolling for squirrels. Lillee walks very well on leash, and she happily walks two or three times each day. I use a harness as she will pull when she sees a squirrel. She's determined to catch one!

As she's become more confident in the foster home and with the resident dogs, she comically will try to climb over the other dogs to be petted. She just needs a human of her own and she will shower you with love. Could sweet Lillee be the gal for you?
